

# Legislative Update

February 3, 2017

The 2017 Long Session of the North Carolina General Assembly promises to be yet another heavy-hitter with education legislation. Fresh out of the gate is [HB 13](#) "Class Size Requirement Changes" which attempts to fix the 2016 budget provision that has an adverse impact on special subject teachers in the arts, physical education, world languages, etc.

As always, educators' and other leaders' efforts to keep their legislators informed of the local impact of education legislation will be instrumental in these months ahead. The following are the key House and Senate Education Committee Chairs and Co-Chairs who will begin taking up education bills in Committee as soon as next week:

| House                           | House                                      | Senate   |
